

# WELCOME to the **Horseworld** Newsletter

A belated Happy New Year to everyone,

Competitions seem to be in full swing so we are sure everyone has already worked off their excesses from the Christmas season! It's also great to see so many international professionals visiting to offer their expertise be it teaching or like Katie Farrell, providing us with independent saddle fitting services.

Following some shop opening time trials we have now decided that we will be open from:

**0900 – 1800 SIX DAYS A WEEK (closed Fridays)**

Happy Shopping and Happy Riding !

[www.horseworld-me.com](http://www.horseworld-me.com)

## PIONEER BOOTS

Pioneer boots from Italy, are made from soft but durable leather. They come in two leg lengths and two calf fittings, zip up the back with elastic to help get a perfect fit. They are a big hit in Europe and we felt everyone in the UAE deserved a piece of the action!

Great price too at AED 1,050

## DR DIANNE BREEZE

### INTERNATIONAL DRESSAGE TRAINER & EQUESTRIAN ARTIST

Competed and trained many horses at all levels from Prelim to Advanced level.

Ridden internationally at Small Tour in Spain where she won at Intermediaire I level.

Trained with Stephen Clark, Kalman De Junerak in Germany, Ferdi Eilberg and present trainer for over 10 yrs, Carl Hester.

Training is focused on sound basic groundwork to develop the horse physically and mentally to be trained up the grades.

For the rider Dianne works on position based on balance and the independence of the aids and shows the importance of riding the horse with the seat and leg aids into an elastic contact.

Clients have been trained along with their horses and are competing affiliated British Dressage from Prelim to PSG, many being successful at the British Dressage Regional and National Championships.

Dianne is available in UAE for private 1:1 and group lessons.

### Equine Artist:

- Horse and animal portraits
- Book illustration
- Cartoons

For more information and to commission art work log on to: [www.diannebreeze.com](http://www.diannebreeze.com) or email: [diannebreeze@me.com](mailto:diannebreeze@me.com) or call on mobile: 050 688 2498

## PRESTIGE SADDLES

We are excited to announce the arrival of two new models of Prestige saddles

### Michel Robert Evolution

The seat has been made softer and with a more anatomic shape giving it an even better balance during flat work and when jumping. The panels have been made with yielding latex to make for better distribution of the riders weight and reduced pressure on the shoulders.

On interview Michel Robert described the saddle as particularly suited to those that need to feel safe in the saddle – don't we all!

### New Hippos Dressage

The main features are the deep seat, large front blocks and more anatomical panels that are shorter to the rear and more flexible and soft to the front, allowing greater freedom of movement about the shoulder area. The result is that the rider sits snugly astride the horse.

We have test models available which you can ride in, so give us a call to make an appointment.

**SALE**

**SALE RAIL**

**SALE**

FEBRUARY SALE RAIL - come and check it out ..... Riding gear from jodphurs and body protectors to polo shirts and and gilets - everything under AED 150

## EQUINE REIKI

Treating the complete horse and restoring balance physically, mentally, emotionally and spiritually.

Horse or Equine Reiki is now becoming more and more popular and recognised for the benefits it can provide horses. Reiki is a form of hands on healing which can bring balance to the horse's energy and encourage healing on many levels. Horses respond incredibly well to Reiki energy which is natural, gentle and holistic, taking into account the whole being. Reiki provides only positive and beneficial changes.

By working with Reiki, positive energy flows into the horse, any imbalance or negative energy is dissipated and balance can be encouraged and restored.

Some of the Benefits:-

- Encourage more suppleness and flexibility
- Increase energy levels
- Accelerate injury rehabilitation or recovery from illness
- Ease anxiety and nerves
- Encourage more balanced behaviour
- Alleviate negative energy or emotions
- Help overcome past trauma and events
- Provide space and time for the horse just to heal
- Give comfort

Reiki is also beneficial to riders, for all the same reasons you might use it on your horse. Horse and rider packages are available.

To find out more information about the benefits of Reiki for you and your horse and prices and packages available, please contact: Amanda Savory, Usui Reiki 1 and 2 & Certified Equine Reiki Practitioner

## HOOF CARE

TWYDIL® HOOFCARE is a revolutionary compound which has neither the unpleasant odour nor the messy application of other hoof preparations.

This cream is easy to apply and helps to keep horses' hooves supple by maintaining pliability when used on a regular basis. TWYDIL® HOOFCARE does not irritate normal hands and nails. It is used by many leading horsemen, trainers and veterinarians.

Specially formulated with natural protein, emulsifiers and emollients TWYDIL® HOOFCARE used regularly helps prevent the development of brittle hooves which might otherwise crack, flake or chip due to excessive dryness. TWYDIL® HOOFCARE may also be used for skin irritation such as saddle injuries etc

How to use: Ensure hooves are clean and free from dirt and grit. Take a small amount of HOOFCARE and massage it directly into the hoof wall, hard sole, frog and particularly the coronet of each hoof. There is no need to use paint brushes, rags or gloves to apply HOOFCARE. Use daily for best results.

## I Am Equus

Have you ever felt there was more to your horse than most people presume? If so, you were probably right. What we take for granted from our horses has long been dismissed as simple instinct, but horses have the capacity for complex emotions, intelligence, and a consciousness not commonly accepted as a trait of the animal kingdom.

In her new book, *I Am Equus: Understanding the Potential of Horses Through Everyday Encounters*, Duaa Anwar plunges deep into this subject, presenting horses that have demonstrated amazing trust, survived against all odds, formed lifelong friendships, made people laugh, and taught others inspirational life lessons. You will also read about horses that have put their own safety at risk to save human lives.

Duaa was born a horse lover and has been riding dressage for most her riding career. She advocates classical and humane riding through her website [www.artofriding.com](http://www.artofriding.com), and is currently preparing to become a BHS riding instructor.

A few years ago while reading a book on the emotional lives of animals, Duaa was disappointed that horses were hardly mentioned, and decided to tune in, connect with her horse, and write a book that illustrates the true intellectual and emotional capacity of horses.

*I Am Equus* is scheduled for release in February 2010, and will be available for purchase online and through bookstores, as well as from Horseworld.

## WOW!! SADDLES

NEW

The first thing you should understand about WOW™ is that they have listened to riders and also invested much time scientifically testing different types of saddles to see how they actually perform on horses. Because of this WOW™ named itself, being the one word everyone said when they rode on it.

WOW™ is also totally new way of owning a saddle. For the first time one can buy a traditional looking saddle and by buying different components, alter all of its' characteristics to suit different horses, riders and disciplines. WOW is the worlds first modular saddle.

WOW™ is already proving that it is capable of performing at the highest levels of our sport in Dressage, Jumping, Eventing, Endurance and Racing. There are too many features to mention so here is just a small selection

Flexible Carbon Fibre Tree - using the latest materials to give the ultimate in flexibility and strength. Lateral Flexion™ allows the horse to rotate the scapula fully under the saddle without interference, whilst also proving a very big bearing surface and hence very low pressures on the horse's back.

PPS™ "Pointless Panel System" – The unique shape of the tree with no conventional points and an extended floating plate on the panel top produces a bearing surface larger than a western saddle!

Double Stirrup Bars - allows the rider to ride with both a straighter leg position for schooling and a more forward leg position for hacking or jumping disciplines.

Adjustable Tree Width – The width of the tree can be adjusted by the rider using the unique Flexi-Head™ in conjunction 11 interchangeable headplates. **Test saddle available soon.**

## DRESSAGE ANYWHERE

Wherever you live you can now ride a British Dressage test of your choice and have it judged by a top British Dressage judge without even leaving the yard!

See [www.dressageanywhere.com](http://www.dressageanywhere.com) for more info
